

## Hello Wisconsin home with an average power bill of \$100,

0 Down .99% 20 year financing. Save you money first month. Grid tied system so you have a small customer charge each month varies by provider. Over production in the summer and bank extra production for winter. Freeze Power Bill in time at current present value of money protecting you from your compounding life time commitment to the power company. Use the money you spend every month for power to pay financed bill. System lasts for about 25 years with manufacture warranties on all components. Stop by our office and see a working system.

**Inverters**

by SolarEdge Technologies

8,011

**kWh Energy Produced**

6.0

**KW DC System**

# How much solar energy will be produced?

8,032

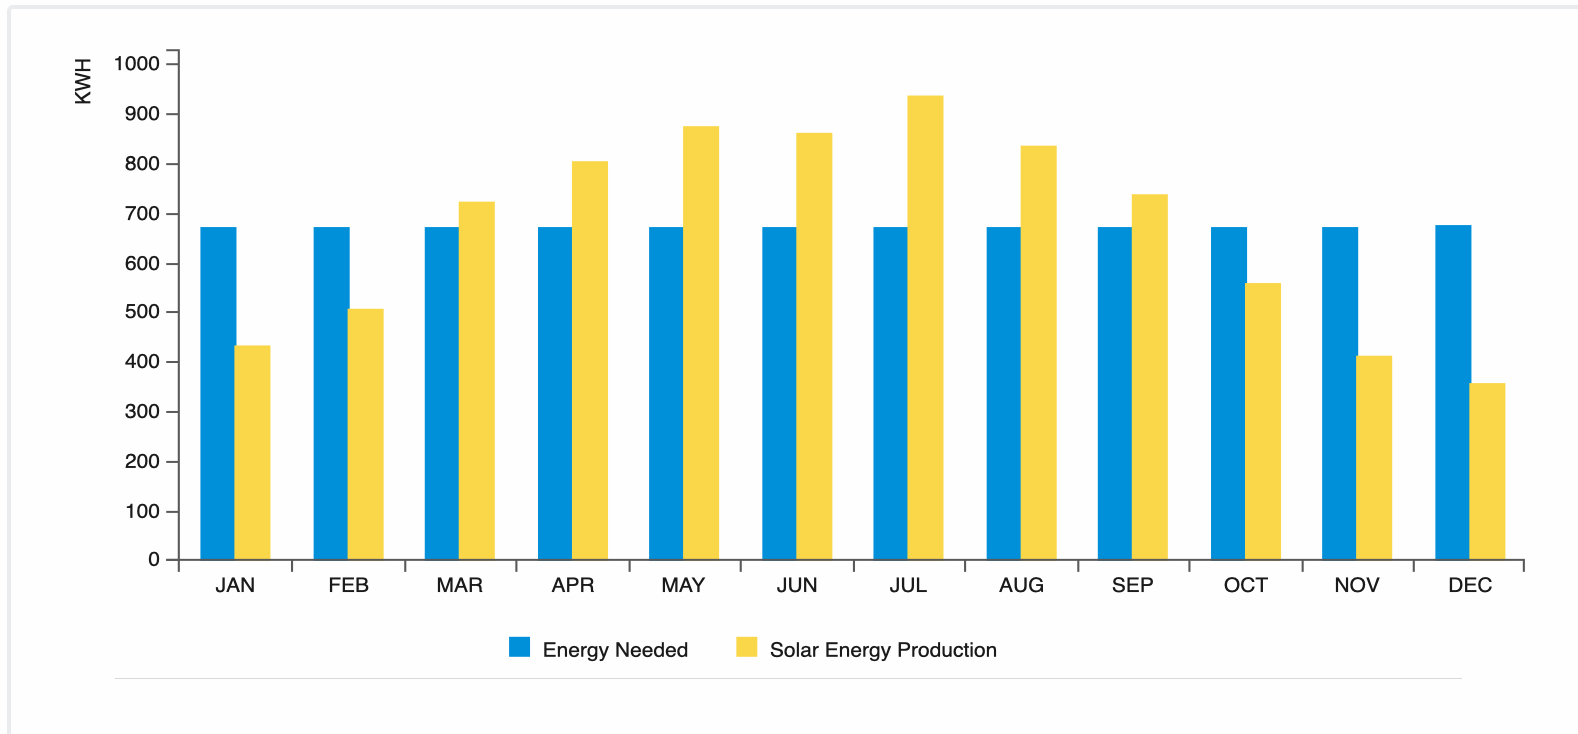

kWh Needed Annually

8,011

kWh Energy Produced  
Annually by Solar

That's 100% of what you need.

The rest will be provided by the grid.

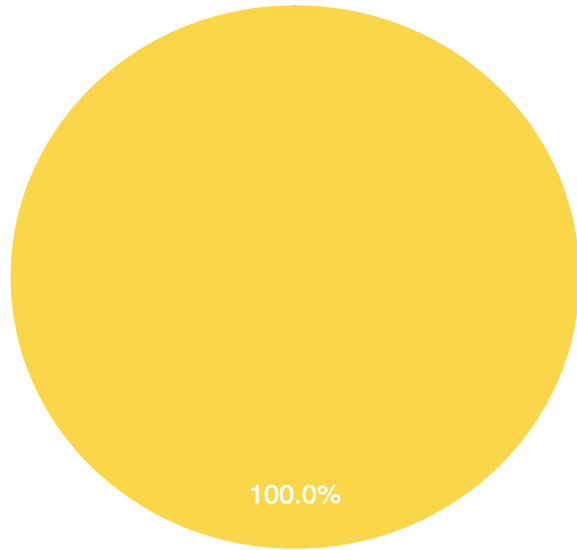

# How much will I save?

# 100%

OF ENERGY USED WILL COME FROM SOLAR

■ Energy from Grid   ■ Solar Energy

# \$104

1ST YEAR SAVINGS

# \$9

AVERAGE SAVED EACH MONTH

# \$18,076

SAVINGS OVER 20 YEAR(S)

# When will I start to save?

\$20,700

SYSTEM COST

-\$5,382

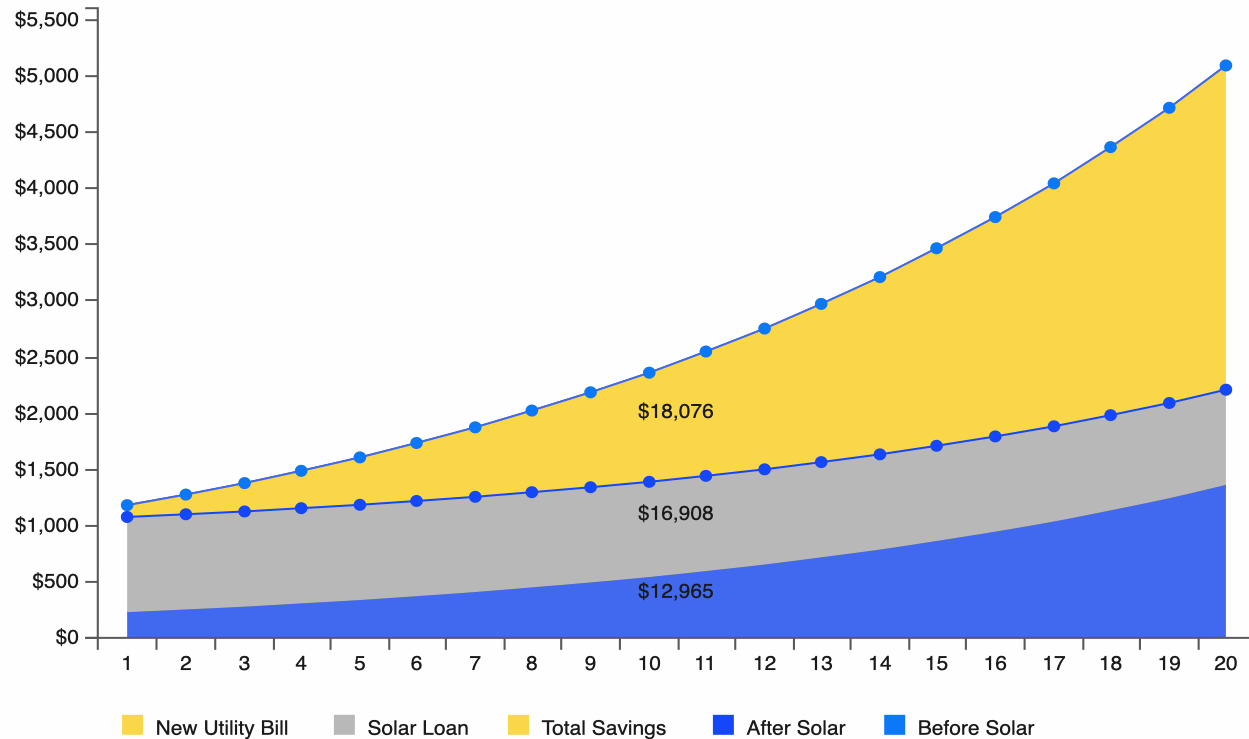

TAX INCENTIVES

\$0

INITIAL DOWN PAYMENT

\$70.45

MONTHLY LOAN PAYMENT

Net savings over 20 year(s) will be \$18,076

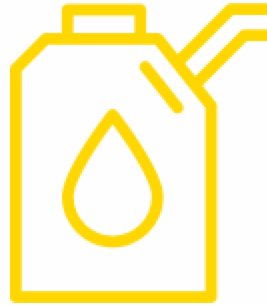

Over a 20 year(s) period of using solar energy you will have saved:

---

2,884

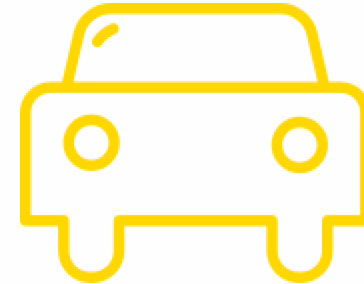

TREES

---

12,657

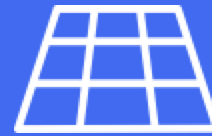

GALLONS OF GAS

---

240,324

MILES DRIVEN

## System Details

ESTIMATED ANNUAL PRODUCTION	8,011 KWH
ESTIMATED SYSTEM SIZE	6.0 KW DC
AC/DC RATIO	0.6
ROOF SLOPE(S)	25°
ROOF AZIMUTH(S)	201°
TOTAL MODULES	16
NUMBER OF INVERTERS	1
ROW SPACING	1"
COLUMN SPACING	1"
GROUND COVERAGE RATIO	0.99

## Components Details

MODULE MANUFACTURER	JINKO SOLAR
MODULE MAKE	JKM375N-6RL3
INVERTER MANUFACTURER	SOLAREEDGE TECHNOLOGIES
INVERTER MAKE	SE10000A-US
MOUNTING MANUFACTURER	
MOUNTING MAKE
